

FABRICATION PARTS AND ASSEMBLY FOR HVAC/R INDUSTRY

Parts, Cut-to-Length, Assemblies

Copper Alloys UNS C12200

TubeFab is dedicated to supplying fabricated copper tubing parts and assemblies in all facets of the HVAC/R Industry.

Our team has an average of over 25 years' experience in the heat exchanger and refrigeration industry. All of our employees are well-trained in all facets of our manufacturing operation, are quality-focused, and strive to manufacture the best products in the industry for our customers.

Our services include the following, but are not limited to:

- Forming & bending of copper tubing
- Parts provided with custom mounting brackets
- Cut to length tubes
- Complete parts/assemblies or sub-assemblies
- Brazed assemblies
- Parts with brazed or swivel fittings

Founded in 2014, TubeFab is the fabricated copper-focused manufacturer of tubing parts and assemblies for the HVAC/R markets.

We pride ourselves on being the easiest company to work with and the best company to work for. Our employees are customer-driven, providing extraordinary service, working with you to solve your problems, and offering new value-add products, services and customized options.

We welcome you to contact TubeFab for a variety of solutions for your requirements by matching your current specifications or by assisting you with any redesign of your specific part(s), based upon tooling capabilities.

In January 2019, TubeFab was purchased by Cambridge-Lee Industries, located in Reading, PA. Having experienced growth by investing in state-of-the-art equipment, through expanded capabilities, and through supplier relationships globally, TubeFab is the industry leader for fabricated copper tubing parts and assemblies.

TubeFab is the source you should consider first.
